

Journal of Korean Society of Coastal and Ocean Engineers(JKSCOE)

Aims and Scope

Journal of Korean Society of Coastal and Ocean Engineers(abbreviated JKSCOE) is indispensable reading for engineers working in the field of coastal and ocean technology. Combining practical application with modern technological and scientific achievements, it publishes fundamental studies as well as applied applications on the following aspects of coastal, oceanographic, harbour and environmental engineering: studies on waves, currents, coastal morphology, estuary hydraulics, harbour, offshore structures, ocean energy development, management, monitoring and facilities within the coastal zone and ocean.

History

The journal was published for the first time in 1989 and granted with the number of ISSN 1017-7116 in 1997. As the change in the Korean title (not the name in English) in 2008, the ISSN (Print) changed to 1976-8192 and the ISSN (Online) 2288-2227 was granted in 2013, and you can access full-text freely from http://www.kscoe.or.kr/bbs/board.php?bo_table=sub3_1_g or www.jkscoe.or.kr without log-in. Subscription should be ordered to the Korean Society of Coastal and Ocean Engineers.

Research and Publication Ethics

For the policies on the research and publication ethics not stated in this instructions, international standards for editors and authors (<http://publicationethics.org/international-standards-editors-and-authors>) can be applied.

Copyright Statement

The copyright of manuscripts already published or to be published in journals is transferred to the society effectively if and when the manuscripts are submitted. In addition, the author is not to object to manuscripts previously published in journals and managed by the society. However, all responsibility of the content of published papers lies with the author. This is an Open-Access article distributed under the terms of the creative commons attribution non-commercial license(<http://creativecommons.org/licenses/by-nc/3.0>) which permits unrestricted non-commercial-use, distribution and reproduction in any medium, provided the original work is properly cited.
